DRAR REALTORS® REPORT MARCH STATISTICS

Durham Region Association of REALTORS® (DRAR) President Tina Sorichetti reported 839 residential transactions in March 2019, a 43 per cent increase from the previous month. There were 1,617 new listings in March 2019, compared to 1,140 in the previous month representing a 42 per cent increase. March 2018 saw 1,755 new listings.

“The spring market is heating up in Durham. It is encouraging to see a jump in sales on a month-over-month basis as we enter into a typically busier time of year during the spring and summer months,” stated Sorichetti. The average selling price in Durham reached \$604,796 last month. In comparison, the average selling price was \$580,743 in February 2019. The average selling price in March 2019 represents a slight increase from the same time last year.

DRAR is pleased with the various measures included in the 2019 Federal Budget that address housing affordability and provide support for first-time home buyers. The budget included the launch of The First-Time Home Buyer’s incentive program, increase to the Home Buyer’s Plan (HBP) withdraw limit from \$25,000 to \$35,000, as well as other actions that support housing supply and affordability.

“REALTORS® have been advocating for the modernization of the Home Buyer’s Plan (HBP) and we are very happy to see this included in the budget,” said Sorichetti. “The OSFI mandated stress test continues to impact home buyer’s ability to qualify for a mortgage and has pushed several potential buyers to the sidelines. The stress test has had a significant impact on the housing market and we are encouraged that the federal government is carefully monitoring its effect.”

“Millenials are passionate about homeownership, it is a positive step forward to have the federal government acknowledge the challenges first-time home buyers face and making housing issues top priority in the 2019 Budget for Canadians,” said Sorichetti.

Overview

The Durham MLS® Statistics provided are compiled by the Durham Region Association of REALTORS® and are based on total home sales. The statistics reflect selling prices for various property types within the Durham Region. These statistics are for informational purposes only.

TA	Total Active (at the end of the last day of the month)
YTD	Year to Date (accumulation of new data to date)
PYTD	Previous Year to Date (accumulation of new data to date for previous year)
%+/-	Year Over Year Percentage Differential
Avg. DOM	Average number of days on the market for firm transactions between the first & last days of the month
Avg. SP/LP	Ratio of the average selling price to the average listing price for firm transactions between the first & last days of the month
MOI	Months of Inventory (how long in months it would take to completely sell the average number of active listings). Calculated using a 12 month moving average (active listings/sales)

NOTES

Sales, dollar volume, average sale prices and median prices are based on firm transactions into the MLS® System between the first and last day of the month/period being reported. Average price is calculated by dividing the dollar volume by the number of sales. Median represents the middle number in the ranking of homes sold from lowest to highest price. As of July 2011 Durham Region statistics figures include the municipalities of Uxbridge and Brock. Due to changes to service areas, caution should be exercised when making historical comparisons. Past monthly and Year-to-Date figures are revised on a monthly basis. All statistical information obtained from the Toronto Real Estate Board's Market Watch. Mos. Inv. is Months of Inventory (how long in months it would take to completely sell the average number of active listings). Calculated using a 12 month moving average (active listings/sales).
